**LIFE,
STYLED.**

**FUSING SPORTY STYLING
WITH PRACTICAL DRIVING.
THE SWACE HAS IT ALL.**

Never choose between style and function again. With the Swace, there's no compromise. It has both by the bucketload. Sharp LED headlamps, an impressive honeycomb patterned grille and flared wheel arches create a powerful and wide stance that complements the Swace's premium estate body.

Practically speaking, the beautifully-designed flowing body lines and sculptured tailgate, which is constructed using lightweight material, not only adds to the dynamic exterior design, but also enhances fuel efficiency. Integrated roof rails neatly top off the distinctive shape of the Swace, and are perfect for simply mounting the optional multi roof rack*, helping you to carry all your gear for that weekend escape.

It's time to have it all with the stylish Swace, the car that's ready to handle your lifestyle.

*Multi roof rack available as a dealer fitted accessory option.

ROOM TO MANOEUVRE

SPACE THAT SPEAKS VOLUMES. GET BEHIND THE WHEEL OF THE SWACE, AND THE POSSIBILITIES ARE ENDLESS.

Say hello to more getaways and holidays with the Swace. Get ready to enjoy more sports and activities. And be prepared to explore more of what the world has to offer.

A large extendable luggage area transforms thanks to a remote lever in the boot. Go from an ample 596 litre compartment to a generous 1,606 litres maximum capacity with the rear seats folded down, making for a fully flat floor which means you'll never run out of space.

The reversible boot floorboard with either carpeted or all weather protected resin surface

can be lowered to store taller objects. That's more room for suitcases, fishing tackle, stuff for family fun at the park or whatever you need.

And with effortless loading and unloading thanks to the handy electromagnetic tailgate, you can just simply open the boot at a touch with the wireless remote control. Don't forget about your passengers too. They'll be sitting comfortably, with plenty of leg room and cabin space so they can really stretch out.

Fit more into the Swace and get more out of life.

GO WITH

ELEGANCE

GO WITH THE FLOW IN THE SWACE. ENJOY SPACIOUSNESS AND COMFORT THAT WRAPS AROUND YOU.

The Swace's interior has been crafted with premium materials, and a keen eye, for a truly elegant experience.

From the moment you sit down, you'll enjoy the feel of the supportive seats built to keep you comfortable throughout your journey. Plus, the soft padding and understated chrome detailing throughout the entire cabin conveys luxury quality and meticulous attention to detail.

The wide instrument panel and chrome details flow seamlessly into the door trim, creating a spacious, attractive, and modern look and feel.

You've also got total control of the cabin temperature with dual-zone automatic air conditioning, which even comes with S-FLOW to automatically detect where passengers are and adjust airflow so everyone is happy. Another nice touch you'll appreciate, well your hands and back will, is the heated steering wheel and front seats.

In fact, the elegant interior feels spacious, open and comfortable for all passengers front and rear. Are you sitting comfortably? You are, if you're in the Swace.

BETTER CONNECTED

HIGH TECH FEATURES TO KEEP YOU GOING.

The world doesn't stop when you get in your car. That's why the Swace is packed full of advanced tech features to help you stay connected and get the most out of your drive.

The Swace is designed with the driver in mind, so everything is in your control. The central multimedia touch screen

display makes it easy to search through menus, personalise your setting and preferences, and link your phone to your car in a few taps. Use Apple CarPlay® or Android Auto™ to stay connected with carefully chosen apps on the go, including certain digital navigation apps.

YOU'RE IN SAFE HANDS

WE'RE DEDICATED TO KEEPING YOU AND YOUR PASSENGERS SAFE AND SECURE. THAT'S WHY THE SWACE COMES EQUIPPED WITH ALL THE LATEST SAFETY FEATURES.

Use tech like our Driving Assist feature to intelligently monitor your surroundings and reduce the likelihood of collisions and help you stay in your lane when driving. It even makes stop and go traffic easier to handle.

You're in very safe hands in the Swace. Explore all the great features that keep you safe and sound.

PRE-COLLISION SYSTEM (PCS)

PCS helps prevent collisions with other vehicles, pedestrians and bicyclists by monitoring the road ahead with a millimetre-wave radar and monocular camera. It supports pre-collision warning, pre-collision braking assist and pre-collision braking features.

LANE TRACING ASSIST (LTA)

When LTA determines that unintended lane departure is likely to occur, it partially assists steering operation to keep the vehicle in the centre of the lane and prevent departure from the lane or road. It includes lane departure alert, steering assist, vehicle sway warning and lane centring features.

ROAD SIGN ASSIST (RSA)

RSA monitors the road for traffic signs and displays them on the multi-information display when they are detected. The system is compatible with speed limit, no passing zone, residential area, end of zone and other European road signs.

DYNAMIC RADAR CRUISE CONTROL (DRCC)

DRCC automatically maintains ample distance with the vehicle ahead and stops the vehicle when the preceding vehicle comes to a stop. When there is no vehicle traveling ahead, the vehicle travels at a fixed speed.

AUTOMATIC HIGH-BEAM (AHB)

AHB automatically switches between high and low beams when appropriate to ensure a clear field of vision for the driver, reduce inconvenient manual operation, and reduce headlamp glare for oncoming traffic while driving at night.

Driving assist functions are limited by the ability of the monocular camera, laser sensor and millimetre-wave radar sensors to detect obstacles, lanes and traffic signs. It may not operate depending on the road surface or weather conditions. Please do not rely on this system alone to ensure safety and take responsibility for driving safely. For more details, ask your local dealer or refer to our official website.

HYBRID FOR LIFE

MAKE THE RIGHT CHOICE. FEEL THE POWER. DRIVE HAPPY.

Get ready for an efficient and powerful drive with the Suzuki Swace. An electric motor is paired with a 1.8 litre petrol engine for optimum performance and efficiency. Plus, a lightweight and efficient CVT automatic transmission comes as standard, so your ride stays smooth and enjoyable through each and every gear.

The Swace is expertly designed for responsive, smooth acceleration, while maintaining excellent fuel economy and low emissions. So you'll get a spirited, comfortable and efficient drive, wherever your heading.

Company drivers will also be glad to know they'll be in a favourable low Benefit-in-Kind tax band too.

And with fuel economy of 64.2mpg and CO₂ emissions just 103g/km (WLTP combined), you can rest easy knowing the Swace is a great choice for you and those around you.

All the more reason to start your next adventure now.

**EASY ON THE EYE. EASY TO DRIVE.
EASY TO KEEP GOING.**

Thanks to the smooth ride and responsive steering, every drive in the Swace is simple and sweet. And because it's a self-charging Full Hybrid system, you don't have to worry about interrupting your drive to find somewhere to charge.

What's more, both the electric motor and petrol engine, can drive the vehicle during acceleration to optimise performance.

And for those early starts when you don't want to wake the neighbours the Swace has a full Electric Vehicle driving mode (for up to approx 1 km), where all the power comes only from the electric motor. Neat.

With 3 driving modes, Normal, Eco and Sport the choice is yours on how you want to drive.

Whichever you choose, you're in for a smooth drive, no compromise.
